

FEATURE: Volunteering Page/Get Involved Page

WHAT IT DOES: This feature is a page that allows users to get more involved with the museum and allows them a way to apply to volunteer there.

WHY WE'RE ADDING IT: This feature allows the user to feel like they can do more than just visit the museum, but gives them a sense of belonging and culture around it. This might make them more inclined towards the museum and recommend that others go there as well. Volunteering will also help build the community surrounding the site, making it more than a place with bones to look at.

DEFINITION OF DONE (all must be completed/true):

- ☐ Application form works
 - Correct inputs and button
- ☐ Navigation that allow user to go back to the home page
- ☐ Styling is similar to home page/rest of site
- ☐ Works on mobile and desktop
- ☐ Tested by whole team

ESTIMATED TIME: Hours during class time = around 4 hours

Hours outside of class time = estimating 3 hours total

TOTAL: 7 Hours

WHO'S DOING WHAT: Ava will be creating the volunteering page and form. Ashley and Ava will be testing the pages.

FEATURE: Dinosaur Timeline Page

WHAT IT DOES: A page with a year slider at the top. It will tell you what period the year selected is, and show some dino cards with an image and basic information for dinosaurs alive at that approximate time.

WHY WE'RE ADDING IT: The dinosaur cards will be added dynamically with javascript, which is fun to make as well as creating a very interactive experience for the user.

DEFINITION OF DONE (all must be completed/true):

- ☐ There is a slider with appropriate bounds for when dinosaurs were allowed
- ☐ The slider year is stored, converted to a period, and this period is displayed to the user
- ☐ Dinosaur cards appear and disappear based on the years they were alive in correspondence with the slider.
- ☐ Works on mobile and desktop
- ☐ Tested by whole team

ESTIMATED TIME: Class time: 4 hrs. Outside of class: 3 hrs. Total: 7 hours.

WHO'S DOING WHAT: Ashley will be creating this page. Ava and Ashley will be testing.
